JMP at West Mesa has flexible meetings which allows students to follow a regular 7 period schedule and participate in after school activities. This is a great fit for students who are working while going to school, or are interested in finding a job, gaining employment skills, creating a career plan, earning extra credits, or boosting their GPA.

Students earn elective credit through community service, job shadow, and written work. The program uses Google Classroom to support communication and manage assignments.

This course is listed as "Acad Ex 1" on students' schedules.
